to construct and make connections with Cesspool, Septic Tank, Sanitary Sewer on

for the Building No. 3827 Jappa Ave.

Location at the Curb.....

Location at the Sewer.....

Location of Cesspool.....

Permit \$ 50 Inspection \$ 1.50 Total \$ 3.00

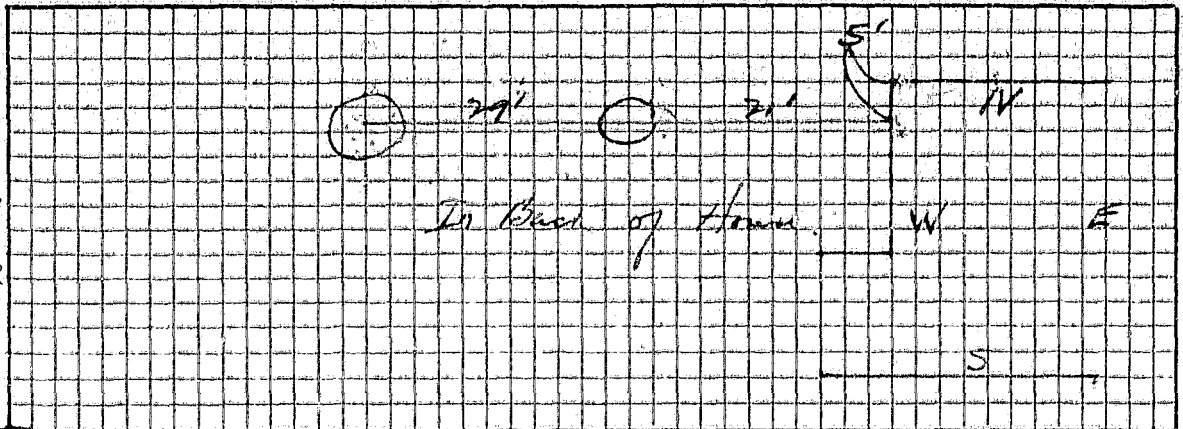

B. J. Recorder

This is to Certify, That the work above described has been completed in a satisfactory manner.

Date 10/4/46 1936 J. W. Inspector

Make drawing below showing location.

Scale 1/2 in. equals 4 ft.

Section 10. Connections — How made: The following rules must be observed and carefully carried out in all work relating to sewer connections:

a. Permits must be procured before breaking ground in any street or alley.

b. No sewer connection shall be laid in the same trench with water, gas, or any other pipes and all sewer connections must be laid far enough from all others to admit of the repair or removal or relaying of any one without disturbing the others.

c. Any new connection made must be made within the middle third of the interior height of the sewer connected with.

d. All connection pipes must be laid in a true line and grade from the sewer to the Building Line and in an open trench from the sewer to the curb, and shall be not less than 6" in diameter and made of best quality 6" Vitrified Clay Pipe or Standard Cast Iron Pipe (Bell and Spigot Pattern) Workmanship in either case to be first class.

The sewer connection in either case to extend from the Village sewer up to and within two feet of the building line. Except where property owners have existing cesspools or tanks the aforesaid sewer connection shall extend from the Village sewer to the house side of the cesspool or tank. Provided further when property owners are desirous of using 4" Standard Cast Iron Soil Pipe (Bell and Spigot Pattern) they may install such cast iron pipe between the curb line and building line only, or the house side of the cesspool or tank as the case may be.

The Village Council reserves the right in case connection between cesspool or tank and building line is of improper material or faulty construction to order such faulty material or construction work removed and replaced by acceptable workmanship and material.

e. All the connection pipe must be enveloped in clean sand or ap-

proved material to a thickness of not less than 6 inches.

f. When required by the inspector all joints of connecting clay sewer pipe must be caulked with Oakum and finished with good cement mortar and all joints of cast iron sewer pipe must be caulked with Oakum and lead, in the best manner and to the satisfaction of the Sewer Inspector.

g. All drains from Public Garages; public or private greasing and automobile washing stations; kitchen sinks of Hotels and public eating houses and from laundries and all other places where deemed necessary by the Sewer Inspector, shall be provided with grease traps or catch basins or both. The outlet for such catch basins to be properly trapped so as to prevent air from the sewer entering the building and to be provided with a back water trap to prevent water from the sewer backing up into the catch basin.

h. After the pipe is properly laid the refilling must proceed at once and it must be thoroughly tamped or puddled or both, and so done that there shall be no surplus earth left.

i. Should there be a deficiency of earth to fill the excavation, then the plumber doing such work must supply such deficiency with clean sand, or approved material.

j. No rock larger than 4 inches across or thick may be put into any excavation, within the 2 feet of cover over pipe.

k. Sidewalk or driveway removed on this permit must be relaid subject to order of Street Commissioner only. Bill for cost of same will be rendered to plumber.

l. All work must be done under the supervision of a sewer inspector appointed by the Village Council, and all drain pipes for public sewers, or for private drains, shall be inspected by him before being covered up.

m. No person shall build a fire upon any pavement, or within any sewer or drain for any purpose whatsoever.

NOTICE!

This perrait is granted in accordance with following Ordinance:

AN ORDINANCE

Relating to and regulating the use of sewers in the Village of St. Louis Park the Council of St. Louis Park do ordain as follows:

Sanitary Sewerage only: No rainwater pipes, leaders or conductors on or from any building, ground or premises in the Village of St. Louis Park shall now or hereafter be connected with any sanitary sewer, sewer pipe or sewer connection.

Any person who shall do or commit any act which is forbidden by this ordinance upon conviction shall be punished by a fine of not more than one hundred dollars, or by imprisonment not exceeding ninety (90) days and if any licensed plumber shall be convicted of any offense under this ordinance the village council may revoke his license.

BUILDING DEPARTMENT

INSPECTION OF BUILDING

Address: 3824 Maple

City: St. Louis, Mo.

I have this day inspected these premises, under the authority of the St. Louis Park Housing Code, and the following conditions pertaining to minimum housing standards were observed:

Notes:

- OK 1. Cover Junction of pipe to basement ceiling.
- OK 2. Football landing to basement.
- OK 3. Correct the waste vent on the Kitchen Sink. Remove the copper leg on the Laundry Tub. Change the floor drain on the bath tub. Spleat has to be above the rim of the tub. Install an Anti-Siphon ball cock in the flush tank.

Case 10-29-75 Complete

When corrections have been made, please call for inspection.

Telephone: 920-3000. Thank you for your cooperation.

CERTIFICATE OF COMPLIANCE

To: Thomas N. Awsumb

This is to certify that the building located at 3824 Joppa Avenue has been inspected this date and is in compliance with the applicable codes and ordinances of the City of St. Louis Park insofar as has been determined by a visual inspection of the premises and a review of City records.

This Certificate does not indicate compliance with any inspectional program other than that of the City of St. Louis Park. This inspection has been made by the City as a public service and does not constitute any representation, guarantee or warranty to any person as to the conditions of buildings inspected. The City does not intend any reliance to be made on this inspection and does not assume any responsibility or liability in the inspection and Certification of Compliance.

The legal occupancy of the structure as is, is 1 dwelling unit(s) of 1 family(ies).

CERTIFICATE NO. 6308 ISSUED BY E JONES DATE 8-21-79
