

PLANS HOME FOR CHRISTMAS.

Gerald R. Martin, secretary of the Hooks Elevator company, plans to erect at 2368-70 West Lake of the Isles boulevard, a new residence to be ready for occupancy by Christmas day. It will be 1 1/2 stories high, dimensions 39 by 89 feet, of stucco and tile construction and of Italian renaissance architecture. A city building permit issued today gives a cost estimate of \$7,000 but a pipe organ and other furnishings and appointments will add materially to the total investment. The plans were drawn by James M. Burner. Carlsted Brothers have agreed to complete the building by Dec. 23.
